- 3. The unit should come with enough power to pair with your device. If you are having trouble on pairing or powering it, please make sure it is fully charged.

Music Playing:

1. Bluetooth Mode:

- Once power on, the unit turns default into Bluetooth Mode, while there is no AUX-IN cable inserted.
- The blue LED light starts flashing at intervals, which means ready for pair.
- The unit will automatically connect to the last Bluetooth device first. If no found, it will search a new one and the blue LED light flashes quicker.
- On the Bluetooth device, switch on Bluetooth setting and search for "TS-017B". For the first-time connection, select "MERURY SPB79" to start connection. If necessary, enter the pass code 0000 or 1234. Once connects successfully, the LED blue light flashes at intervals.
- To disconnect the unit from current Bluetooth device, switch off Bluetooth from current Bluetooth device. Or long press Play/Pause key to disconnect and search another Bluetooth device.
- Play music on the Bluetooth device. You can listen to music from the unit wirelessly (< 33 ft.).
 The music streaming may be interrupted by obstacles between the device and the unit, such as walls, metallic casing that covers the device, or other devices nearby that operate in the same frequency.

2. Aux-in Mode:

- Once Aux-in cable inserted, the unit turns into Aux-in Mode. Play music on your audio device.
- Under this mode, LED blue light is always on.

Speakerphone

- 1. When there is an incoming call, music will pause automatically. Pick up or hang up the phone call by press "Phone" button one time. Music play resumes when your call ends.
- 2. To reject an incoming call, please press and hold the "PHONE" button.
- 3. To redial the last number, long press the "PHONE" button.
- 4. The Speakerphone function is only available under Bluetooth mode.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -- Reorient or relocate the receiving antenna.
- -- Increase the separation between the equipment and receiver.
- -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
